--	--	--	--	--	--

The diagram illustrates the relationship between the number of people in the labor force and the number of people in the labor force in 1960, 1970, and 1980. It features a large rectangle divided into sections, with various numbers and labels indicating different groups and their sizes.

Top Section:

- Left side: 1960 (with a bar representing 6 units)
- Right side: 6 (with a bar representing 6 units)

Middle Section:

- Left side: 3 (with a bar representing 3 units)
- Right side: 1 (with a bar representing 1 unit)
- Below the right side: 11 (with a bar representing 11 units)
- Below the right side: 1970~1980 (with a bar representing 1 unit)

Bottom Section:

- Left side: 1960 (with a bar representing 10 units)
- Right side: 50 (with a bar representing 50 units)
- Below the right side: 50 (with a bar representing 50 units)
- Below the right side: 25 (with a bar representing 25 units)
- Below the right side: 40 (with a bar representing 40 units)
