A horizontal timeline illustrating the growth of the Internet. The timeline is marked with years: 1985, 1990, 2000, 2009, 2016, and 2022. The growth is represented by a series of horizontal bars of increasing length, each composed of small rectangular segments. The bars are stacked vertically, with the longest bar at the bottom (2022) and the shortest at the top (1985). The bars show a steady increase in length over time, with a particularly noticeable jump between 2000 and 2009, and another significant increase between 2016 and 2022. The bars are labeled with their corresponding years: 1985, 2000, 2009, 2016, and 2022. The year 1990 is also marked on the timeline but does not have a corresponding bar. The label 'IDS' is positioned at the far right of the timeline.

921 SARS COVID-19

The diagram illustrates the multiplication of two 16-bit numbers. The first number is represented by a row of 16 small squares, all containing '1'. The second number is represented by a row of 8 small squares, all containing '1'. The result of the multiplication is shown as a row of 18 small squares, all containing '1'. The multiplication is indicated by an 'X' between the two input rows.
