Timeline visualization showing the number of papers published per year from 1980 to 2019. The timeline consists of 40 horizontal bars, each representing a year. The bars are filled with a pattern of small squares, indicating the count of papers. The year 1996 is highlighted with a larger, bolded square. The number of papers increases steadily over time, starting from a low count in 1980 and reaching a high count by 2019.
